

January 2011

To Whom It May Concern,

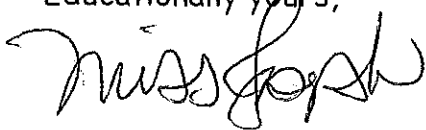

This letter is to inform you of my experience with the ICEP program at Findley CLC. This school year two of my first grade students have participated in the ICEP program.

The staff has been wonderful. They have always listened to my concerns, and they all genuinely care about Findley students. We have developed a system where I provide some additional school work that they can do with my students. This has worked beautifully. I am happy to provide this information to the staff because it gives my students another opportunity to practice concepts we are working on in the classroom. The ICEP staff has welcomed this system with open arms. I appreciate our communication, and the staff is willing to help my students in any way they can.

Most importantly, I have noticed a tremendous difference in my students who have participated in this program. They are progressing exceptionally well this school year, and their confidence has soared. ICEP provides them with an opportunity for extra academic practice, as well as, interaction with other students and staff that has built their confidence and self esteem.

I am very grateful to the ICEP staff and their program. It is certainly an asset to the students at Findley CLC.

Educationally yours,

A handwritten signature in cursive script, appearing to read "Miss Joseph".

Miss Joseph
First Grade Teacher
